### COUPLE OF DISASTROLS CONFLAGRATIONS

The "Courier-J. ma" of today says. A genuine frost fell Monday night in this state, Indiana and portions of Tennessee. It was nt first suppresed. that it was to ought to do note had inage, though there was a very measy feeling upon the tobacco "breaks." Reports soon began coming la, however, which stated that he exposed portlans the todiaceo was killed and the corn frosted. Due farmer, Mr. E. H Smith, of Owen county, exhibited a tobacco plant with leaves Journal so blackened by the frost that it was plandy to be seen the damage was not exaggerated. A telephone message from Mr. Will Clay, of Mi. Sterling, said 100 acres of tolsacce had been runned near that town. A dispatch from Parls said that a good, deal of Hourtson county tobacco laid. been caught, and similar reports came from Madison, Shelby, Woodford. Hart and image other counties In the lintley belt.

News from the dark tobacco see tion was equally discouraging. Telegrams were received from A. C. Toppkins & Co. and J. S. Pheben & Co., of theensboro; 11 D. Haynes & Co , of Whitewille, Daviess, county, R E. Massie, of Sinuglatersville, Webster county, and many other dealers and formers detailing the

damage in their respective benittes The best informed warencer-emen in the trade said their advices were that a large proportion of the late plantinff was in the field, and they thought it would be inned. The Weather Ruleson Crope Section Rulestia estimated the proportion of mean tobacco at 25 per cent. Tobacco buyers generally said they thought Oth or Cross. the frost was too light to do much damage.

The amount of corn that was caught was probably small, but all the late vegetables were killed, and as a consequence advanced abanyly in the markets.

## ANNOUNCEMENT.

Commonwealth's Attorney. Sam Honston is a candidate for the office of Commonwealth's Attorney for the Second Ju-dicial district comp sec of Metracken au-Karshall counties at the November election

It is r l 'y reported from the West that Mr. Bryan pays two dollars for a shave. We fear that the prophet of cheap money and high prices will find as much difficulty in l'ha! Are in Need of Repairs explaining this act of his as he does in explaining why wheat and silver have parted company.

We don't hear anything nowadays from the Democratic pre-s about McKlnley being the "advance agent of prosperity." Neither does Bryan ask his friends facetiously now, If they have seen the "General." The show has caught up with the ad. vance agent, and General Prosperity and Inspector Coshy estimates that a is among us.

Last year while we were luxuriating in the blessings of a Democratio tariff and Democratic times, the idea would have been a good one. But things are different naw.

The manager of the "Register" having become color blind when he sees the questions propounded by the Sun, it is possible he don't know how Mr. J. M. Lang, the Democratic nominee for mayor, voted. The question of what constitutes residence is important and has I een been frequently adjudicated. The constitution prescribed that "soldiers, sailors and marines of the United States shall not be deemed residents of the state by reason of being stationed within the same."

The "General Statutes" of 1873 laid down certain rules for determin-Office, Standard Block, 115 North Fourth ing the residence of persons offering to vote, mainly drawn from decisions .\$ 4.50 of the court, and the "Kentucky 40 tion, passed since the adoption of our tially the same rules, which are as follows:

"Second-He shall not lose his residence by absence for temporary purposes merely; nor shall he obtain a residence by being in a county or precinct for such temporary purposes without the intention of making the county or precluct his home."

There are three other rules, all earrying out the principle that no length of stay for temporary purposes constitutes such a residence as gives a right to vote.
